Indian Society of Earthquake Science (ISES)
C/o Institute of Seismological Research,
Raisan, Gandhinagar – 382009.
GUJARAT - INDIA

We are living on the planet Earth which is a mysterious planet. It provides a number of resources and at the same time it gives jerks to life in form of calamities such as floods, cyclones, hurricanes, volcanoes and earthquakes. Amongst them Earthquake calamity is the most disastrous. We know something about Earthquake Science but a lot is to be learnt. ISES will work especially in the field of Earthquake Science as a carrier to cover the distance between known and unknown about Science of Earthquakes.

MISSION

- To promote the advance study and exchange of ideas amongst the seismologists, geologists, earthquake engineers and geotechnical engineers by discussion on subjects of interests in the field of

Earthquake Science by organizing meetings, conferences, seminars, symposia, annual lecture programs etc.

- To strengthen the level and dissemination of Earthquake Science by preparation and publication of teaching and training material and publishing research bulletins, journals, memoirs, monographs etc. and to synergize co-ordination of research and investigations in all disciplines related to Earthquake Science. To popularize the Earthquake Science by conducting awareness programs and spread the related knowledge to public.
- To facilitate research projects with the national and international collaborations and to carry out activities for achieving the above mentioned objectives of the society for the benefit of its members with no profit motive.
